

Problem	solution	rate
Old lady forgets to drink/eat food	Create a timetable/clock reminder	7
Ciya a girl who has diabetes and is brown, needs an app that has traditional foods- so she can count her calories.	Make an app, where you add ingredients and then it calculates the calory intake	4
A girl wants to play a puzzle but keeps losing the peace	Male an online puzzle, you also add personalised images, works offline	6
A man has problems reading and understanding a question in exams	An app that reads the question out loud, also reads it slow/ fast. An app where it reads the same question but in different ways, changing the wording- so the man can understand it better.	6
AC gets too cold during night/too less warm	An app that controls the AC- keeps it to room temperature	4

User- Old people/ people who forget.

As a user I want an easy access app, two pages.

- As a user I want to set reminders for food
- As a user I want to set reminders for drinks.
- As a user I want three meal reminders
- As a user I want reminders to have water very 30 minutes
- As a user I want reminder only during daytime not night
